Serving the Public Interest

Grant of the licence will serve the public interest by promoting the Wholesale Electricity Market Objectives as follows:

- o Market Objective a) "to promote the economically efficient, safe and reliable production and supply of electricity and electricity related services in the SWIS".

Grant of the licence will support this by:

- a. Providing small private generators with a route-to-market and retail margin for their energy and capacity;
- b. *Market Objective b) "to encourage competition among generators and retailers in the SWIS, including by facilitating efficient entry of new competitors".*

Grant of the licence will support this by:

- a. facilitating the development of small private power stations;
- b. offering consumers an additional retail alternative;
- c. *Market Objective c) "avoid discrimination against particular energy options and technologies, including sustainable energy options and technologies such as those that make use of renewable resources or that reduce overall greenhouse gas emissions".*

Grant of the licence will support this by:

- a. facilitating the focussing of limited fuel resources on high value opportunities;
- d. *Market Objective d) "to minimise the long-term cost of electricity supplied to consumers from the SWIS".*

Grant of the licence will promote this by:

- a. promoting the development of new small generators;
- b. increasing retail competition by offering consumers an additional alternative;

NewRet

- e *Market Objective e) "to encourage the taking of measures to manage the amount of electricity used and when it is used."*

Grant of the licence will promote this by facilitating its converse; managing the amount of energy produced and when it is produced from limited fuel resources;
