Amendment to the REMCo Retail Market Rules

DECISION

The Economic Regulation Authority (**ERA**) has approved an amendment to the Retail Energy Market Company's (**REMCo**) Retail Market Rules, which are part of the Retail Market Scheme (**Scheme**) providing for the operation of the Western Australian Gas Retail Market.

REMCo submitted a Rule Change proposal (C02/14R) to the ERA for approval, which will enable REMCo to calculate the quantity of Unaccounted for Gas for a network operator's uncovered pipelines, if requested to do so by the network operator, and subject to the network operator agreeing to pay for all costs incurred in making these calculations.

Uncovered pipelines are pipelines that are not covered under the *National Gas Access (Western Australia) Law*, or subject to any other third party access regime or other instrument under a law.

The ERA has approved the amendment to the Retail Market Rules, which will take effect on 16 February 2015.

The ERA's Decision Paper explaining the reasons for the approval are available on the ERA's [website](#).
