

## Proposed amendments to the *Code of Conduct for the Supply of Electricity to Small Use Customers*

### INVITATION FOR PUBLIC SUBMISSIONS

The Electricity Code Consultative Committee (**ECCC**) seeks public comment on the amendments proposed by the Economic Regulation Authority (**ERA**) to the *Code of Conduct for the Supply of Electricity to Small Use Customers* (**Code**).

In December 2015, the ECCC submitted to the ERA its Final Review Report on the 2015 statutory review of the Code. The Final Review Report included 70 recommendations for amendments to the Code.

Upon consideration of the [ECCC's Final Review Report](#), the ERA accepted all of the ECCC's recommendations, except for one recommendation for which the ERA has proposed different drafting (Recommendation 25A). The ERA has also proposed a minor drafting change to clause 4.17(3) (Recommendation 26).

The *Electricity Industry Act 2004* (**Act**) requires that the ERA consult with the ECCC prior to amending the Code. The Act also requires that the committee give any interested person an opportunity to comment before providing its advice to the ERA. The ECCC therefore invites written submissions on the ERA's proposed amendments to the Code, which are set out in the ERA's [Draft Decision](#).

Submissions, addressed to Mr Paul Kelly, Chairman ECCC are due by **4:00 pm (WST) Friday, 26 February 2016**. **Late submissions will not be considered.**
