Dear Elizabeth

Technical Rules Amendment Submission, November 2015 Part A – Version 3

I refer to Western Power's request for a number of amendments to the 2011 Technical Rules submitted to the Authority on 6 November 2015.

After reviewing the Authority's Draft Decision and taking account of feedback Western Power has received from various stakeholders regarding the proposed amendments, Western Power wishes to submit an updated version (Version 3) of the 'November 2015 Part A' amendment request.

Version 3 contains marked up changes for:

1. DC injection – Section 3.1 is replaced with a new section requesting the removal of sub-clause 3.2.1(c)(3)
2. Three revised definitions in relation to 'connection point', 'connection assets' and 'point of common coupling'.

If you have any queries with regards to this request, please do not hesitate to contact Mr Lindsay Offer on 9326 6303.

Yours sincerely

Margaret Pyrchla
Regulatory Compliance Manager
