Address:	PO Box 861 CLOVERDALE WA 6985
Date submitted:	30 April 2009

Submission

1. Please provide your views on the proposal, including any objections or suggested revisions

LGP supports the Rule Change proposal on the grounds that it facilitates the network Operator in coordinating network outages with generator outages, thereby reducing the alternative prospect of forced generator outages due to network unavailability.

2. Please provide an assessment, whether the change will better facilitate the achievement of the Market Objectives

LGP supports System Management's contention that the Rule Change promotes Market Objective a) (to promote the economically efficient, safe and reliable production and supply of Electricity) and is otherwise consistent with the other objectives.

3. Please indicate if the proposed change will have any implications for your organisation, (for example changes to your IT or business systems) and any costs involved

LGP would incur no organisational costs as a consequence of adopting the change.

4. Please indicate the time required for your organisation to implement the change, should it be accepted as proposed

LGP would be able to implement this Rule Change immediately.
