Date submitted:	14 September 2009

Submission

1. Please provide your views on the proposal, including any objections or suggested revisions.

Synergy supports Rule Change Proposal RC_2009_19, which acts to correct a noticeable error whereby the IMO is required to assess the performance of Reserve Capacity (by the fifth Business Day of each month per Market Rule 4.27.2) before it receives the necessary supply outage data from System Management (by the fifteenth Business Day following the Trading Day per Market Rule 7.13.1A).

2. Please provide an assessment whether the change will better facilitate the achievement of the Market Objectives.

Synergy agrees with the IMO that the proposed changes will improved the integrity of the Market Rules and will therefore better facilitate achievement of the Wholesale Market Objectives.

3. Please indicate if the proposed change will have any implications for your organisation (for example changes to your IT or business systems) and any costs involved in implementing these changes.

Synergy would not require any changes to IT or business systems nor incur any organisational costs as a consequence of adopting the proposed change.

4. Please indicate the time required for your organisation to implement the change, should it be accepted as proposed.

Synergy would be able to implement this rule change immediately.
