

## Tomlinson, E – Lenton Brae Wines

I have difficulty accepting the need to continually have to complete the Dept of Racing, Gaming and Liquor's Annual Liquor Return.

I reckon it costs me and my bookkeeper about 1 day of time and resources that I can put to much better use.

I have no idea what RGL use this data collected from the wine producers of WA for. I can appreciate the data collected was of a purpose when the WA govt collected Sales tax on wine sold, but this tax collection ended when the GST was introduced in 2000! Why am I still having to provide this data?

Please reform.

Thank you
