

Notice

31 March 2019

Ancillary service parameters: margin peak and margin off-peak (for 2019/20) and Cost_LR (for 2019/20 to 2021/22)

Determination

The Economic Regulation Authority has determined values of 17.32 per cent and 12.92 per cent, respectively, for the margin peak and margin off-peak parameters to apply in the 2019/20 financial year.

The ERA has also determined that the values of Cost_LR parameter are \$4,324,238 for the 2019/20 financial year, \$4,299,148 for the 2020/21 financial year, and \$4,361,377 for the 2021/22 financial year.

These determinations are pursuant to clauses 3.13.3A and 3.13.3B of the Wholesale Electricity Market Rules. In its determination, the ERA took into account the Wholesale Electricity Market objectives, AEMO's proposals and calculation reports for margin values and Cost_LR parameter, and comments received from stakeholders in response to the ERA's issues paper.

The ERA's determination of margin peak, margin off-peak and Cost_LR parameters explains the reason for this decision and is available on the [ERA's website](#).
