

Notice

2 July 2024

Mid-West and South-West Gas Distribution Systems access arrangement 2025-29

Publication of consultant report

The Economic Regulation Authority has published a [consultant report](#) it commissioned to gauge the views of West Australian home builders and developers on the installation of gas in new homes during ATCO's sixth access arrangement period (AA6).

This report was prepared by Patterson Research Group, which consulted with West Australian home builders and developers on their views of installing gas appliances in new homes and trends for installation of differing energy-mix appliances during the AA6 period.

As noted in the ERA's draft decision, this report was not available to take into account of in the draft decision. However, this consultant report may be relied on as part of the final decision. The ERA expects to publish its final decision on ATCO's sixth access arrangement by November 2024.

Interested parties can review the ERA's draft decision and ATCO's revised access arrangement including other supporting information, available on the ERA's [website](#).

Invitation for submissions

On 24 April 2024, the ERA published a draft decision on ATCO's proposal for AA6 period for the Mid-West and South-West Gas Distribution Systems.

Interested parties have until **Tuesday, 9 July 2024** to make their submissions on the ERA's draft decision and any revised proposal submitted by ATCO during the revision period.

Submissions can be lodged online using the form on our [Current Consultation webpage](#).
