Southern Cross Energy Partnership

Minor amendment to electricity transmission licence ETL4

The Economic Regulation Authority has approved a minor amendment to TEC Desert Pty Ltd and TEC Desert No. 2 Pty Ltd's (trading as Southern Cross Energy Partnership) electricity transmission licence ETL4.

Southern Cross Energy is undertaking a project to extend 12 kilometres of transmission line circuit (66kV) from the Cassini substation to a new Higginsville substation at Higginsville mine. The amended boundary extension of ETL4 is to provide reticulated electricity to the Higginsville mine.

The ERA considers the change to the licence to be a minor amendment that does not require public consultation.

The amended licence ETL4 (version 12) and the map are available on the [Licence Holders webpage](#).
