Dampier to Bunbury Natural Gas Pipeline

Reference Tariff Variation – 1 January 2025

The Economic Regulation Authority has approved an annual reference tariff variation for the Dampier to Bunbury Natural Gas Pipeline (DBNGP) to apply from 1 January 2025. The approved reference tariffs are lower than the current tariffs by around 3.8 per cent.

The DBNGP access arrangement provides for an annual tariff variation to adjust for differences in the forecast and actual inflation, cost pass-through events, rebateable non-reference service revenue and to update the rate of return. The operator, DBNGP (WA) Transmission Pty Limited (DBP), proposed to vary the reference tariffs for actual inflation, an updated estimate of the rate of return and the amount of rebateable non-reference service revenue but proposed no cost pass-through events.

The ERA has accepted DBP's proposal to reduce reference tariffs, as the impact of higher inflation is fully offset by a lower debt risk premium and deducting rebateable non-reference service revenue. The actual inflation rate of 2.8 per cent for the September quarter 2024 exceeded the forecast inflation rate of 1.15 per cent at the time of the last access arrangement. The ten-year trailing average used to estimate the debt risk premium is lower than the value determined last year, as a lower 2025 value replaces the 2015 value. The effect of the rebateable non-reference service revenue on the total varied full haul reference tariff is \$0.2417/GJ.

The ERA has verified that the proposed variation is in accordance with the current DBNGP access arrangement.

The new reference tariffs are effective from 1 January 2025 and are shown in the table below. DBP's proposal and the approved reference tariffs are available on the ERA [website](#).

Reference Tariff Variation Effective From 1 January 2025	Capacity Reservation Tariff	Commodity Tariff	Total Reference Tariff
Full Haul T1 Reference Tariff (\$/GJ)	1.287880	0.079497	1.367377
Part Haul P1 Reference Tariff (\$/GJ/km)	0.000921	0.000057	0.000978
Back Haul B1 Reference Tariff (\$/GJ/km)	0.000921	0.000057	0.000978
