2024/25 performance reporting for electricity and gas licensees

The Economic Regulation Authority has published updated handbooks and datasheets for annual data reporting for electricity and gas licensees in Western Australia.

New versions of the 2024/25 performance indicators and definitions handbook, and performance reporting datasheet have been published for four licence types:

- [Electricity retailers](#)
- [Electricity distributors](#)
- [Gas retailers](#)
- [Gas distributors](#)

Each financial year, electricity and gas licensees must use the ERA's datasheets to report against performance indicators. The ERA produces [reports and datasheets](#) to summarise this data across industries and customer cohorts. For the first time in 2025, the ERA published two dashboards showing 10 years of electricity and gas, retailer and distributor data. The dashboards will be updated once licensees have submitted their 2024/25 data.
