Attention: Paul Kelly

Executive Director Licensing, Monitoring & Customer Protection
Economic Regulation Authority
PO Box 8469
PERTH BC WA 6849

Dear Paul,

AMENDMENT TO LICENCE AREA – CORAL BAY

Horizon Power established the existing licence area boundary for Coral Bay prior to any detailed planning of the power system. The boundary location was a best estimate of the licence area requirements for the area at the time when Horizon Power was in the process of applying for an Integrated Regional Licence.

Construction of the power system at Coral Bay is now well advanced and it has been identified that the current licence boundary does not include the power station, wind farm or boating facility.

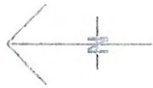

The attached diagram shows a proposed alternative to the licence area, which includes the power station, wind farm and boating facility. Please also find attached payment of the \$500 fee for an amendment application in accordance with (section 21(2) of the Electricity Industry Act 2004 and section 3 of the Electricity Industry (Licensing Fees) Regulations 2005).

I request that the Economic Regulation Authority amend the licence area for Coral Bay as proposed.

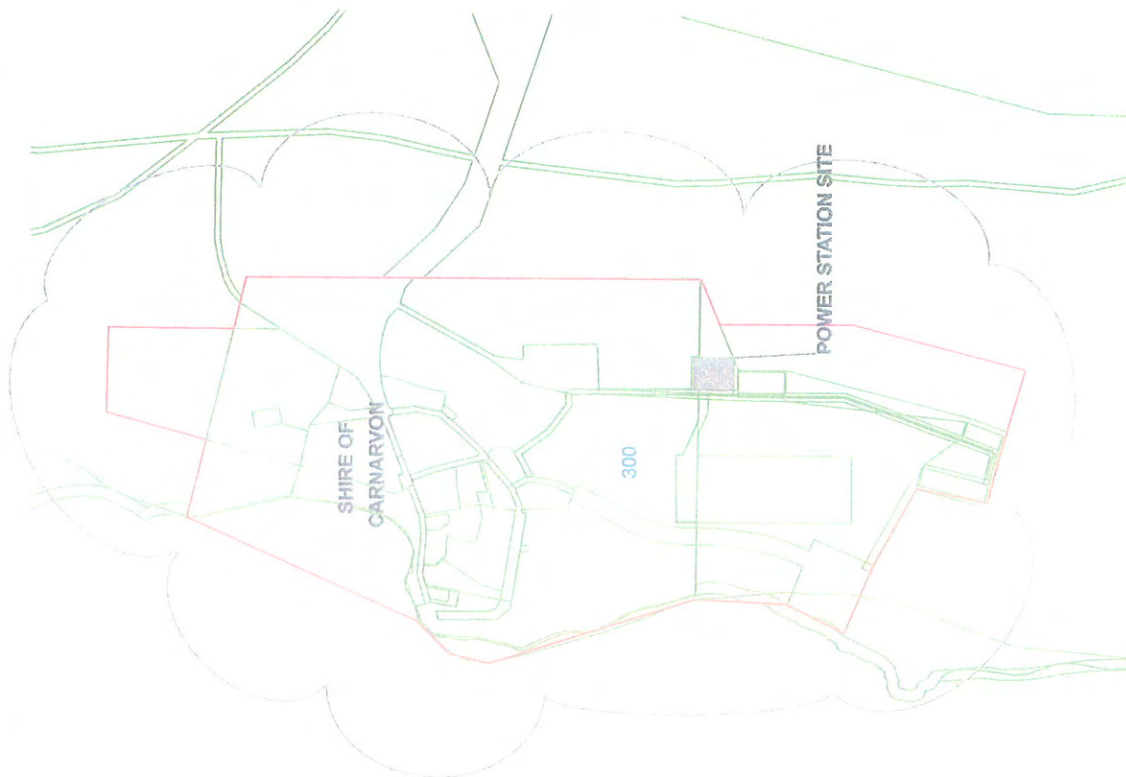

Yours sincerely,

GRANT STACY
