

6 July 2010

Mr Paul Kelly
Director
Economic Regulation Authority
6th Floor
197 St George's Tce
PERTH WA 6000

Paul

Dear Mr Kelly

OPERATING LICENCE 31 – CHANGE OF OPERATING AREA

This application is to both request an increase in our current Operating Area as required as a consequence of our recent audit and to add another Operating Area. Maps are attached which indicate the areas requested.

The additional Operating Area in the Upper Collie Basin is requested because Harvey Water has been negotiating with Perdaman Chemicals and Fertilisers for the long term supply of industrial water to their proposed plant which is planned to begin operating in 2013.

Harvey Water has reasoned that there will be a requirement for more industrial water in future in the Upper Collie Basin and rather than restrict the additional Operating Area solely to the PCF plant it is sensible to encompass the known industrial areas and companies as well for this application.

Please contact Harvey Water if you would like more information.

Yours sincerely

Geoff Calder
GENERAL MANAGER

Amendment Details	
Licence No	31, Variation 1.
Reason for and Details of the Amendment	<p>PLEASE SEE ATTACHED MAPS SHOWING EXPANDED AREA REQUIRED AS A RESULT OF OUR LAST AUDIT AND A NEW AREA IN THE UPPER COLWE BASIN FOR THE PURPOSE OF SUPPLYING INDUSTRIAL WATER</p> <p>Note: Add more space as necessary</p>

HARVEY WATER APPLICATION TO AMEND OPERATING LICENCE 31, Version 1.

Harvey Water wishes to amend Operating Licence 31, Version 1 by adding another operating area.

The current operating area, described as OWR-OA-178/3(C), is attached.

Also attached is a map of the additional operating area sought. It is generally to the east of, but also including, the Wellington dam.

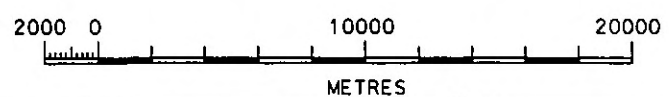

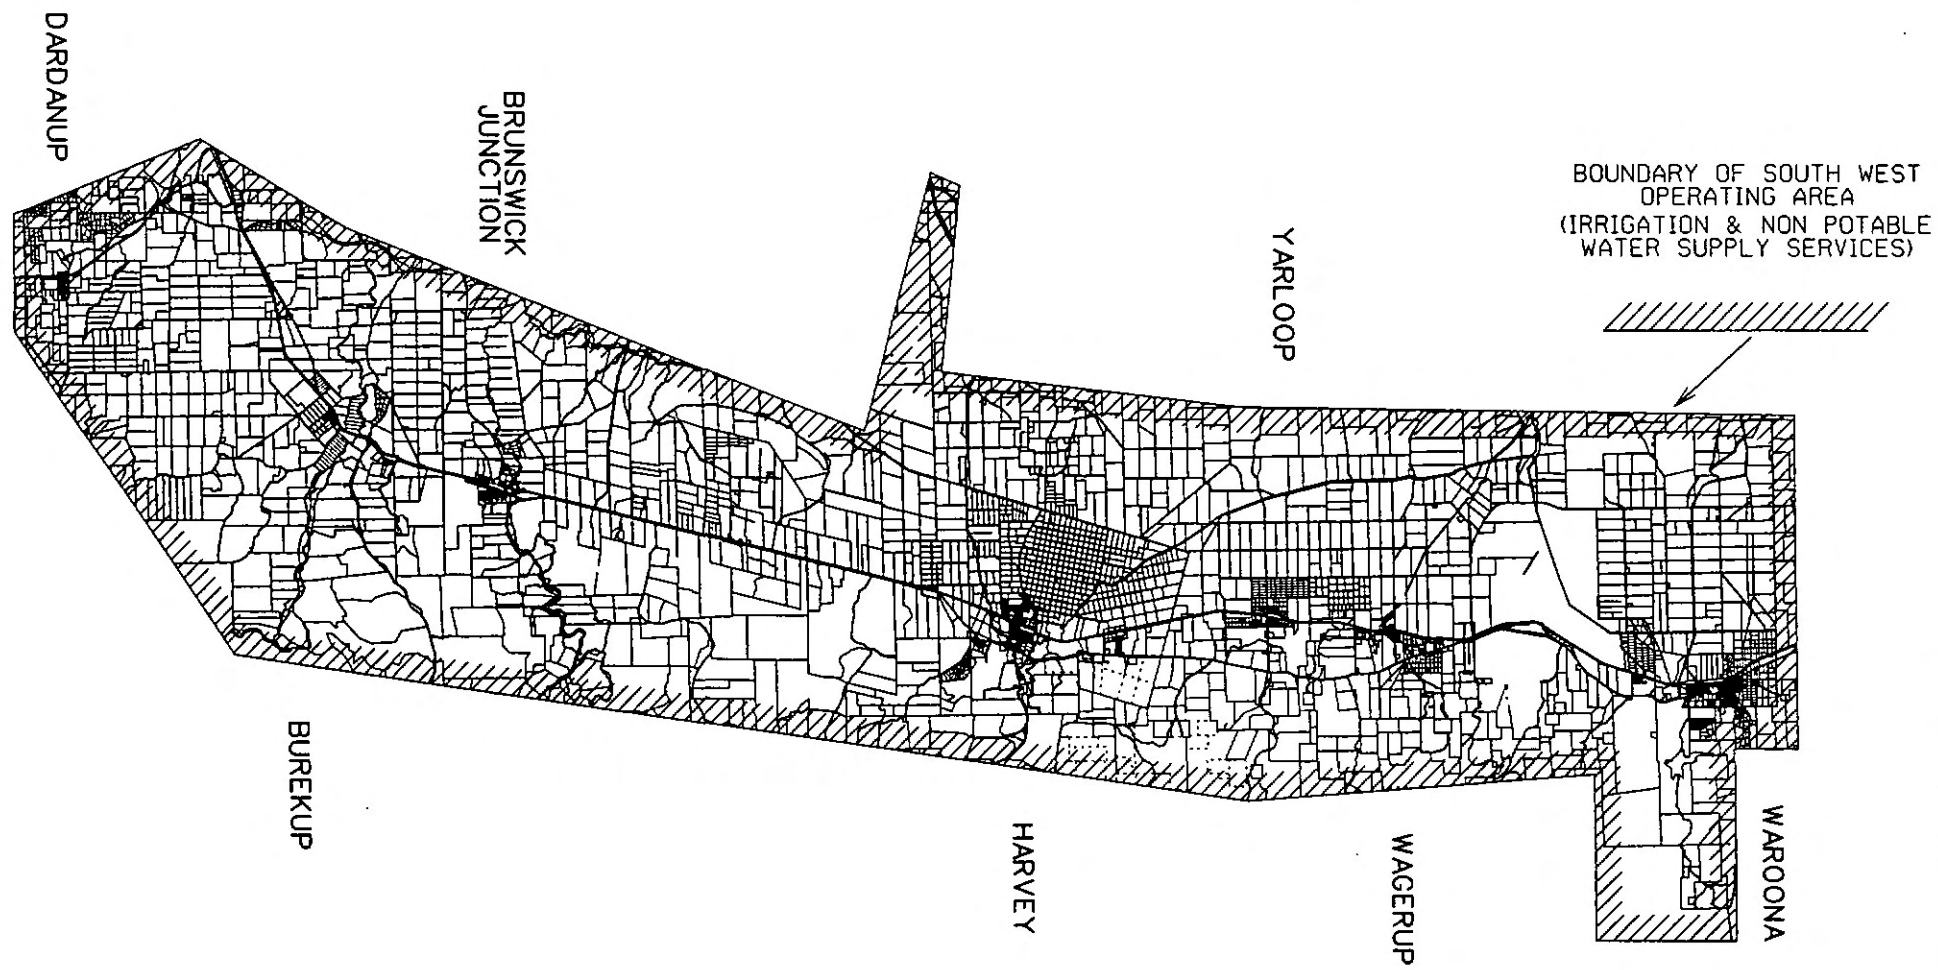

The purpose for the amendment sought is to be able to supply non-potable water to industries in the Shotts Industrial Area just to the east of Collie township and potentially to other industries in the Upper Collie Basin.

Our Surface Water Licence No. SWL 98951 (4) states that the "Location of Water Source is Lot 325 Wellington Forest – Wellington Reservoir." This demonstrates that Harvey Water is permitted to take water from Wellington dam but this is not reflected in our operating area.

Harvey Water has been negotiating with Perdaman Chemicals and Fertilisers (PCF) on the supply of industrial water direct from Wellington dam. Our understanding is that they will take the water from the old Water Corporation supply point on the base of the dam wall which used to supply the Great Southern Towns.

As the water will then be taken to the Shotts Industrial Areas where PCF will be located it is necessary to include that area as well. Harvey Water has taken the prudent option of also extending the area to the east and north to include the power stations there which may conceivably also want water in future.
